

Professional Driving School strives to offer the best Driver's Education Program in the Magic Valley. We offer a thorough program for teenagers that are at least 14.5 years old, as well as a customized program for adults. The following is a list of reasons you should consider sending your son or daughter to our driving school:

We are a state-licensed full time driving school.

We have been in business since 1981.

We provide 30 hours of class time, 6 hours of drive time, 6 hours of observation time, and 3 hours of computer simulation time.

We teach each student how to drive using both standard and automatic transmissions.

We are able to give our students the unique opportunity of driving our semi at the end of our program for about 15 minutes in the parking lot

We are experienced in training students with special physical needs or learning disabilities.

Because we are a full-time school, we are more able to work with special scheduling needs or learning disabilities.

Parent Orientation to ensure that parents and teachers are working together to give students the best opportunity for a quality education.

Parent Drive, where the parent has an opportunity to ride along with the student and teacher and evaluate the last drive.

At the end of the program there is a parent night to educate parents on the next six months with their student.

We provide a certificate of completion

Our main objective is to prepare each student to be a safe, alert, , and knowledgeable driver for the rest of his/her life.
